

Tentmaking Song (MP3 on Course CD)

(Pray for the ongoing recording of a CD full of songs for tentmakers, including this one.)

1. I felt it the first time I saw your eyes
There was something about you, that words could not explain
On the job together we were close right from the start
But deep inside we were living worlds apart

2. I watched you on the job from day to day
And saw a clear reflection, of the One you claimed to serve
Your words might never reach me, but your faith touched me so deeply
Your life was like an open book to me

Chorus:

It was through your life, I saw the life of Jesus
Through your life I felt His love for me
When words could never reach me
Your faith touched me so deeply
Your life was like an open book to me
Your life was like an open book to me

3. Around the world the millions cry alone
For someone just to show them, the love they've never known
And Jesus calls His children to go to them today
To live and work and give His love away

4. You lived your faith and shared your love each day
I watched you from afar and often saw you pray
Your life touched me so deeply, when words could never reach me
You chose to come and give His love away

Chorus 2:

You came to us, to show the love of Jesus
Through your life, I felt His love for me
When words could never reach me
Your faith touched me so deeply,
Your life was like an open book to me
Your life was like an open book to me
